

Privacy Policy

This Privacy Policy explains how spanSense collects, uses, shares, and protects personal data when you use the spanSense platform and the spanSense Field companion app.

1. Introduction

- 1.1 This Privacy Policy applies to personal data processed by spanSense in connection with the spanSense web application and the spanSense Field companion app (together, the "**Service**"). It should be read alongside our Terms & Conditions.
- 1.2 We process personal data in accordance with the UK General Data Protection Regulation and the Data Protection Act 2018.

2. Who We Are

- 2.1 The data controller for personal data processed through the Service is **spanSense Ltd**, trading as **spanSense**, of **[REGISTERED OFFICE ADDRESS]** ("**spanSense**", "**we**", "**us**").
- 2.2 You can contact us about privacy matters at **support@spansense.io**.

3. Personal Data We Collect

3.1 We collect the following categories of personal data:

CATEGORY	EXAMPLES
Account data	Name, email address, role, organisation, password (stored as a salted hash)
Usage data	Login activity, actions taken within the Service, device and browser information
Inspection-related data	Inspector names recorded against inspections; site photographs, which may incidentally include images of people or vehicles present at a site
Communications	Messages sent to us via the Contact Us form or support email

3.2 Structure and defect data (bridge condition scores, span details, BCI values, and similar) is not, in itself, personal data, unless it is combined with information that identifies a specific individual.

4. How We Collect Your Data

4.1 We collect data you provide directly (for example, when registering an account or logging an inspection), and data collected automatically through your use of the Service (for example, login timestamps).

5. How We Use Your Data and Our Legal Bases

PURPOSE	LEGAL BASIS
Providing and maintaining the Service, including your account and inspection records	Performance of a contract with you or your organisation
Responding to support requests and messages sent via Contact Us	Legitimate interests (supporting our users)
Monitoring for misuse, and maintaining the security of the Service	Legitimate interests / legal obligation
Improving the Service (e.g. understanding which features are used)	Legitimate interests
Complying with legal or regulatory obligations	Legal obligation

6. Structure and Inspection Data

- 6.1** Most data recorded within the Service (structures, defects, spans, BCI scores) describes physical infrastructure rather than individuals. Where personal data does appear — for example, an inspector's name against a record, or a person incidentally visible in a site photograph — the Customer submitting that data is responsible for ensuring it has a lawful basis to do so and, where applicable, for informing the individuals concerned.

7. Sharing Your Data

- 7.1 We do not sell personal data. We share personal data only with the service providers who host and support the Service on our behalf ("**sub-processors**"), under contractual terms that require them to protect it, and only to the extent necessary to provide the Service.

SUB-PROCESSOR	PURPOSE
Render	Application hosting
Supabase	Our PostgreSQL database, and secure storage of uploaded photographs and files
Google (Gemini API)	AI-assisted extraction of structured data from uploaded inspection documents and drafting of conclusion text; document contents and inspector-entered comments are sent to this API for processing
CARTO / OpenStreetMap	Map tile imagery for the structure-location map; tile requests carry the requesting device's IP address

- 7.2 We may also disclose personal data where required by law, to protect our rights, or in connection with a merger, acquisition, or sale of assets (in which case we will take reasonable steps to ensure your data continues to be protected).

8. International Data Transfers

- 8.1 Our sub-processors may store or process data outside the UK. Where this occurs, we take reasonable steps to ensure appropriate safeguards are in place, such as relying on providers' standard contractual clauses or adequacy arrangements recognised under UK data protection law.

9. Data Retention

- 9.1** We retain personal data for as long as your account is active and the data is needed to provide the Service, and afterwards for a reasonable period to comply with legal obligations, resolve disputes, and enforce our agreements.
- 9.2** On request, or on termination of an account, we will delete or anonymise personal data we no longer need to retain, subject to any legal retention requirements.

10. Data Security

- 10.1** We use technical and organisational measures appropriate to the risk to protect personal data, including:
- encrypted connections (HTTPS) between your device and our servers;
 - passwords stored using industry-standard salted hashing, never in plain text;
 - uploaded photographs and files held in private storage, accessible only via short-lived signed links rather than public URLs;
 - role-based permissions that limit what each Authorised User can see and do within your account; and
 - server-side session management, rather than storing sensitive credentials in the browser.
- 10.2** No method of transmission or storage is completely secure, and we cannot guarantee absolute security. A fuller data security policy, covering our practices in more detail, is in preparation.

11. Cookies and Similar Technologies

- 11.1** The Service uses essential cookies/local storage strictly necessary to keep you signed in and to remember preferences such as dark mode. We do not currently use non-essential analytics or advertising cookies.

12. Your Rights

12.1 Subject to applicable law, you have the right to:

- access the personal data we hold about you;
- request correction of inaccurate data;
- request erasure of your data, subject to our legal retention requirements;
- request restriction of, or object to, certain processing;
- request a portable copy of your data; and
- lodge a complaint with the UK Information Commissioner's Office (ICO) at ico.org.uk.

12.2 To exercise any of these rights, contact us at **support@spansense.io**. Where your account is managed by an organisation (your employer), some requests may need to be made through that organisation as the relevant data controller for its own records.

13. Children's Data

13.1 The Service is intended for use by professionals in the course of their work and is not directed at, or intended for use by, children.

14. Changes to This Policy

14.1 We may update this Privacy Policy from time to time. Material changes will be notified via email or an in-app notice before they take effect.

15. Contact Us

15.1 For any questions about this Privacy Policy or how we handle personal data, contact **support@spansense.io**.
